MACAO POLYTECHNIC UNIVERSITY
BACHELOR OF SCIENCE IN COMPUTING
CSAI3121-311/312 Machine Learning and Intelligent Data Analysis
Academic year 2026/2027 | Semester 1

Group Project – Self and Peer Assessment

Your Name: João Vitor Konrad **Student ID:** P2627402

A. Self-Assessment - Please provide an honest self-assessment of your performance in the project:

Criteria	**Description**	**Rate*** **1-5**	**Feedback**
Understanding of subject matter	Gain good amount of knowledge about weather prediction concepts	**4**	
Data analysis	Improve ability to analyse data and draw meaningful conclusions	**4**	
Model development	Improve ability to produce quality ML solutions	**4**	
Originality	Originality in approach and solutions proposed, e.g., think of a new way to do things	**3**	
Team work	Work effectively as a team member, e.g., communicate problems, provide help to members, participate actively, real contribution to group works (report and presentation preparation)	**5**	
	Please compute the average rating	**4**	

Self-reflection: (if any)

***Rating guide:**
5 - Excellent: Demonstrate thorough understanding, high quality, creativity, strong problem-solving
4 - Good: Show solid skill, meets standards, show effective application and learning
3 - Satisfactory: Basic understanding, demonstrate some capability, some errors, with incomplete elements, but achieves core objectives
2 - Needs: Limited understanding, frequent mistakes, require additional efforts to meet objectives
1 - Poor: Lack understanding, fail to meet most requirements, little learning or effort.

B. Peer Assessment - Please provide peer assessment for the other members of your team regarding their performance in this teamwork.

Other Member Name **Member Name**	**Collaboration** **Rate: 1-5***	**Communication** **Rate: 1-5***	**Quality of Work** **Rate: 1-5***	**Reliability** **Rate: 1-5***	**Average**
	Work effectively with others, contribute to a positive group dynamic	Clarity and effectiveness in sharing ideas, providing feedback, engaging in discussions	Relevance and depth of ideas, effort contributed to the project	Consistency meeting deadlines, fulfilling assigned roles, taking responsibility for tasks	Compute the average rate for each member
Thiago	5	4	4	5	4,5
Marcelo	4	5	4	5	4,5

***Rating guide:**
5 - Excellent: Demonstrate thorough understanding, high quality, creativity, strong problem-solving
4 - Good: Show solid skill, meets standards, show effective application and learning
3 - Satisfactory: Basic understanding, demonstrate some capability, some errors, with incomplete elements, but achieves core objectives
2 - Needs: Limited understanding, frequent mistakes, require additional efforts to meet objectives
1 - Poor: Lack understanding, fail to meet most requirements, little learning or effort.

Other feedbacks related to the team and project: (if any)
